Council File No: 26-1141

Comments for Public Posting: I support Councilman McOsker's motion because I support getting answers and ensuring that public health and safety remain the priority. I also believe our community deserves the opportunity to understand the issues, the risks, the available options, and the potential consequences of those options before a final outcome is determined. Meaningful community engagement requires more than simply asking residents to support or oppose an issue. It requires providing clear information, answering questions, and giving residents, businesses, and neighboring communities an opportunity to make informed decisions. I appreciate Councilman McOsker bringing these important issues forward and support the continued review, transparency, and community dialogue these motions can provide. David Matthews
