Council File No: 26-1141

Comments for Public Posting: Dear Honorable Los Angeles City Council Members: Protecting the Torrance community from toxic substances must be a priority. Residents deserve clean air, full transparency, and strong safeguards against chemical exposure. Companies like Jones Chemicals, Inc. who handle hazardous materials must be held accountable for preventing releases and protecting the health and safety of our families, children, and workers. We respectfully ask that regulators continue strong oversight, ensure all outstanding issues are fully resolved, and keep the community informed about inspections, corrective actions, and emergency-response plans. The goal should be prevention, accountability, and protecting the health and safety of the surrounding community. Sincerely,
Robina Suwol Executive Director California Safe Schools
