Comments for Public Posting: I support that we get support to stop the illegal take overs. My family struggles with ashtma and it has been worse since March. My children get woken up to the sounds of the take over and are scared when we hear them going into our cul de saq as they hide from the officers. We have had issues with water when these take overs decided to do a water show part of their dangerous acts. Please help us find peace and have a full night's sleep . These take overs are dangerous and bringing more issues to our quiet area .
