Comments for Public Posting: Jurisdiction boundaries are PREVENTING our neighborhoods to be safe from these street takeovers. Just 30 minutes ago I found 5 individuals in my backyard who were running away from the street takeover that was interrupted by police. On Alondra and Figueroa there needs to be something to deter these street takeovers!! How is it possible that there's things to prevent these takeovers in areas were there's warehouses and not in places in which families live at with children!!! This is not safe! We shouldn't be wide awake at 4am listening to these takeovers and worried if we're going to get intruders into our private property!! Something needs to be done!! All our tax money and property tax money need to be used to keep us safe!! To keep our streets clean!!
