**Comments for Public Posting:** Street takeovers need to end now! It is absolutely absurd that they have been allowed to continue for this long, putting so many innocent lives at risk. These participants have zero respect for the community or public property. A few weeks ago, I was driving home with food and got trapped inside one of these takeovers. I was completely boxed in with no way out. To make matters worse, three weeks later I received a ticket in the mail for "disobeying posted signs"—which I am currently contesting! During these late-night events, illegal fireworks are set off and tires screech constantly as cars do donuts. It starts as early as 11 PM and keeps the neighborhood awake until 3 sometimes even 4 AM. It has to stop!!
