

MOTION

The Metro Active Transportation (MAT) First/Last Mile G Line Sepulveda Station Project (Project ID C1207; Work Order M0017073) will provide pedestrian and bicyclist improvements in the San Fernando Valley. The Bureau of Street Services (StreetsLA) is coordinating with the Los Angeles Department of Transportation (LADOT) to integrate the civil and transportation design elements for the project.

LADOT requires \$144,900 to prepare traffic signal and striping plans for the project, consisting of \$75,000 for traffic signal plans and \$69,900 for striping plans. A transfer of Proposition C funds from StreetsLA to LADOT is needed to allow this design work to proceed in a timely manner. The project is eligible for reimbursement through its Metro funding agreement with Measure M funds.

I THEREFORE MOVE, subject to the approval of the Mayor, that \$144,900 be transferred / appropriated from the Bureau of Street Services Fund No. 100, Department 86, Account No. 001010 (Salaries, General), to the Department of Transportation Fund No. 100, Department 94, Account No. 001090 (Salaries, Overtime), for traffic signal and striping design services for the MAT First/Last Mile G Line Sepulveda Station Project in the San Fernando Valley.

I FURTHER MOVE that the Bureau of Street Services, in coordination with the Department of Transportation and the City Administrative Officer, be authorized to make any technical corrections or clarifications to the above fund transfer instructions in order to effectuate the intent of this Motion.
