FISCAL IMPACT STATEMENT

The 21 contracts are PQOC consultant contracts for as-needed services and do not commit the City to any expenditure. Funds are encumbered on a project-by-project basis from various sources at the time the specific Task Order proposals are solicited from the FIRMS. All funds expended on Task Orders for consultants off the PQOC consultant lists are funds that have been approved in the individual project or program budgets.

TRANSMITTALS

1. Copy of each executed contract with the FIRMS: 11 for Environmental Documentation Services and 10 for Environmental Specialty Studies Services, all dated September 29, 2021.
2. Copy of Proposed Contract Amendment No. 1 for each contract, extending the term through September 28, 2029.

DISCUSSION

Background

State and federal laws require the City to disclose and consider the potential environmental effects of proposed public works and to the maximum extent possible, to protect sensitive environmental resources. The work required to comply with these laws frequently exceeds the capacity of City staff or requires expertise not available from City staff. On September 24, 2021, the Board approved the PQOC list of consultants to provide environmental documentation and environmental specialty studies consultant services. Five-year contracts were executed between the City and the FIRMS on September 29, 2021 (Transmittal No. 1). Eleven of these contracts are for environmental documentation consultant services, providing interdisciplinary environmental documents such as environmental impact reports and related technical studies. Ten contracts are for environmental specialty studies consultant services, relating to the identification and protection of historical, archaeological, and paleontological resources.

The contracts will expire on September 28, 2026. City staff is preparing a Request for Qualifications to put new contracts in place but will not be able to execute new contracts before the existing contracts expire. Approval of Amendment No. 1 to the contracts with the FIRMS is requested to extend the duration of the contracts in order to continue the availability

August 7, 2026
Page 3

of these services without interruption until new contracts can be executed (Transmittal No. 2). With this extension, the total term of each contract will increase to eight years.

Amendment

Given that various tasks within the scope of the contracts can span over three years, the BOE proposes a three-year extension of the term of the current contracts. This proactive measure will ensure uninterrupted progress, allowing the current FIRMS to see their commitments through to successful completion.

Business Inclusion Program (BIP)

The contracts are subject to the BIP outreach requirements. Therefore, the City has established anticipated participation levels of 18 percent minority-owned (MBE), 4 percent women-owned (WBE), 25 percent small (SBE), 8 percent emerging (EBE), and 3 percent veteran-owned (DVBE) business enterprises.

The following tables reflect the list of MBE, WBE, SBE, EBE, DVBE, and Other Business Enterprise (OBE) subconsultants utilized for the active tasks under each contract and the MBE, WBE, SBE, EBE, DVBE, and OBE subconsultants pledged to be utilized by the FIRMS for Amendment No. 1.

Environmental Documentation Contracts

FISCAL IMPACT STATEMENT

The 21 contracts are PQOC consultant contracts for as-needed services and do not commit the City to any expenditure. Funds are encumbered on a project-by-project basis from various sources at the time the specific Task Order proposals are solicited from the FIRMS. All funds expended on Task Orders for consultants off the PQOC consultant lists are funds that have been approved in the individual project or program budgets.

TRANSMITTALS

1. Copy of each executed contract with the FIRMS: 11 for Environmental Documentation Services and 10 for Environmental Specialty Studies Services, all dated September 29, 2021.
2. Copy of Proposed Contract Amendment No. 1 for each contract, extending the term through September 28, 2029.

DISCUSSION

Background

State and federal laws require the City to disclose and consider the potential environmental effects of proposed public works and to the maximum extent possible, to protect sensitive environmental resources. The work required to comply with these laws frequently exceeds the capacity of City staff or requires expertise not available from City staff. On September 24, 2021, the Board approved the PQOC list of consultants to provide environmental documentation and environmental specialty studies consultant services. Five-year contracts were executed between the City and the FIRMS on September 29, 2021 (Transmittal No. 1). Eleven of these contracts are for environmental documentation consultant services, providing interdisciplinary environmental documents such as environmental impact reports and related technical studies. Ten contracts are for environmental specialty studies consultant services, relating to the identification and protection of historical, archaeological, and paleontological resources.

The contracts will expire on September 28, 2026. City staff is preparing a Request for Qualifications to put new contracts in place but will not be able to execute new contracts before the existing contracts expire. Approval of Amendment No. 1 to the contracts with the FIRMS is requested to extend the duration of the contracts in order to continue the availability of these services without interruption until new contracts can be executed (Transmittal No. 2). With this extension, the total term of each contract will increase to eight years.

Amendment

Given that various tasks within the scope of the contracts can span over three years, the BOE proposes a three-year extension of the term of the current contracts. This proactive measure will ensure uninterrupted progress, allowing the current FIRMS to see their commitments through to successful completion.

Business Inclusion Program (BIP)

The contracts are subject to the BIP outreach requirements. Therefore, the City has established anticipated participation levels of 18 percent minority-owned (MBE), 4 percent women-owned (WBE), 25 percent small (SBE), 8 percent emerging (EBE), and 3 percent veteran-owned (DVBE) business enterprises.

The following tables reflect the list of MBE, WBE, SBE, EBE, DVBE, and Other Business Enterprise (OBE) subconsultants utilized for the active tasks under each contract and the MBE, WBE, SBE, EBE, DVBE, and OBE subconsultants pledged to be utilized by the FIRMS for Amendment No. 1.
