LAPD Information Technology Bureau

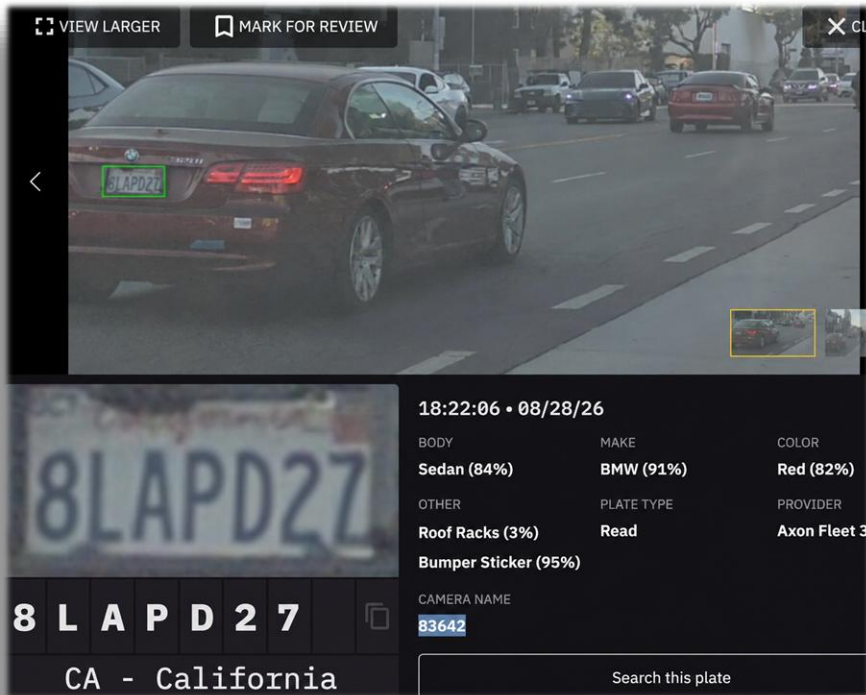

DEAN GIALAMAS, Chief Information Officer
RANDY GODDARD, Commander
Information Technology Bureau

ALPR Technology Myth v. Fact

- **ALPR**

- Captures a vehicle and license plate image, along with the date, time, location, and certain vehicle characteristics
- Does not include facial recognition, biometric identification, audio recording, and person-focused behavioral analytics
- Does not share data outside California or with Federal immigration officials

ALPR

- **Case Examples - Measuring Outcomes**
- **Palisades Fire - Extending Limited Resources**
- **September 2026 Data**

Where We Are Today

- **Listen - Respond - Lead**
- **LAPD ALPR Guardrails**
 - Data Ownership, Privacy and Safeguards
 - Access and Data Controls
 - Audits and Accountability
 - Transparency

- **Data Ownership**
 - Mandatory Contractual Language
- **Access and Controls**
 - Authorized Use and Prohibited Searches
 - Search Requirements & Timeframes
 - Suspend Data Sharing
- **Audits and Accountability**
 - Monthly Inspections
 - External Audits
 - Risk Based + Random Audits
- **Transparency**
 - Expanded Public Reporting
 - Camera Deployment Criteria

Inspections and Accountability

- **Comprehensive Inspection Framework**
- **Enhanced Oversight Measures**
- **Independent Accountability**
- **Corrective Action for Misuse**

LAPD GOAL:

ALPR can be a trusted and effective public safety tool while addressing the responsibility of using such powerful technology.

Thank You
