

MOTION

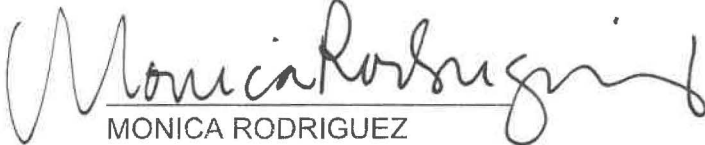

On January 9, 2024 the City of Los Angeles contracted with West Valley Homes Yes, Inc. (WVHY) to support the recreational vehicles (RV) Outreach to Home Program in Council District 7.

The program aims to reduce the number of uninhabitable recreational vehicles on City streets through trauma informed, service focused outreach. As of October 2026 we have transitioned 416 individuals into housing and removed 201 RVs.

WVHY services also include providing food, hygiene kits, referrals, assistance obtaining vehicle documentation, and vehicle repairs to help residents bring their RVs or cars into saleable condition. The contract requires the nonprofit to document expenditures, maintain separate financial records, submit payment requests and a final closeout statement, and return any unspent or unapproved funds to the City.

I THEREFORE MOVE that the City Clerk be directed and authorized to extend the term of City Contract C-144852 with West Valley Homes for continued support for its Recreational Vehicles (RV) Outreach to Home Program, and services in Council District 7 for an extended period from November 1, 2023 to November 1, 2027.
