Comments for Public Posting: I oppose splitting the Housing and Homelessness Committee in two. The two policy areas are inextricably linked. The word we use to describe people experiencing homelessness is literally "unhoused". People become unhoused when they get evicted from housing. Unhoused people need to be placed in permanent housing. Overall homelessness increases as rents increase. Splitting the Housing and Homelessness Committee in two will make it harder to coordinate efforts in a system that is already failing. Please reconsider this ill-advised move.
