Comments for Public Posting: Vote NO on expansion of 41.18 zones. I am an educator who works in CD6. While school districts in other municipalities are implementing safe parking programs on their campuses to support their growing unhoused student population, Los Angeles is using the LAMC 41.18 to banish and criminalize the very same constituents and community members that it is falsely claiming to protect. In 2023-2024, over 60,000 K-12 students in LA County experienced homelessness. It is evident that LAMC 41.18 is violent, costly policy to enforce. Invest in long-term affordable housing and NOT expansion of 41.18.

Comments for Public Posting: 41.18 kills. It is proven to be a waste of time and money, resources that this city could be spending to actually house and provide resources for its unhoused residents. Instead, thanks to policies like 41.18, our unhoused neighbors are routinely subjected to sweeps in which their belongings and important documents are destroyed, often leaving them with nothing. When you take away the few resources people have and rob them of a place to sleep, you leave them even more exposed to danger. I am vehemently opposed to any new additional 41.18 zones.

Comments for Public Posting: This is completely outrageous. The criteria language used in this resolution creating a huge arse list of 26 new 41.18 zones is "the circumstances at this location poses a particular and ongoing threat to public health or safety" !!! Exactly WHAT EVIDENCE IS BEING PROVIDED for creating this huge list of discriminatory anti-homeless sundown zones, which will criminalize a population dominated by disabled people and people of color? I hereby demand to see this evidence and so should you.

Comments for Public Posting: Why does this council continue to introduce and pass 41.18 resolution zones? Everyone on this council knows that these zones are a waste of taxpayer money, do nothing to solve the housing crisis, and actually make it worse. 41.18 zones ask the LAPD to spend more of our resources on enforcement and banishment targeting poor people. What kind of a society are we that see this as progress? What kind of City government are you that sees this as anything but failed policy, failed leadership, and failed use of taxpayer funds you were elected to use for the greater good of our communities. 7 houseless people will die today in LA because of political cowardice and violent policy-making dba genocide. 7 will die today on your watch. How many will die tomorrow?

Comments for Public Posting: Sweeping homeless people doesn't solve them being unhoused. It doesn't make anyone safer. It just displaces people and wastes city money. I urge you to vote against the expansion of the criminalization of homelessness.
